**DIGITAL HORIZON SOLUTIONS ANNOUNCES AN ALLIANCE WITH
PSA SECURITY NETWORK**

FRISCO, TEXAS—August 4, 2008—Digital Horizon Solutions (DHS), a progressive provider of integrated access control and security management solutions, announced today the agreement to offer the Eclipse Product Suite through PSA Security Network.

PSA is the world's largest electronic security cooperative representing systems integrators in the Americas. It provides favorable buying power for a wide range of products to its members as well as centralized purchasing, training, information exchange, marketing support, and a host of other services.

The Eclipse™ system is an integrated security management™ system that includes: Access Control, Intrusion Detection, Alarm Management, Biometrics, Graphics Mapping, DVR support, and Seamless Network Video Integration. The Eclipse product suite provides PSA members the advantage to offer their customers the ability to start as a small system and upgrade into an enterprise-integrated security system with the capability to network around the world.

“The Eclipse™ products suite addresses the demand of our members for a scalable enterprise-class access control and security management system, and we welcome this addition to our current offerings,” said Bill Bozeman, president and CEO of PSA Security Network.

“We are excited about the opportunity to provide PSA members a solution to satisfy their customers' needs for a feature rich Security Management System”, said Mohsen Hekmatyar, Vice President of Sales for Digital Horizon Solutions. “This alliance strengthens our market reach and expands our geographical presence”.

###

About Digital Horizon Solutions

Headquartered in Dallas, Texas, Digital Horizon Solutions (DHS) provides enterprise-level access control and integrated security solutions designed for today's IT environments. DHS' scalable and robust Eclipse™ security management solution affords customers a powerful and user-friendly technology which enables them to combat the ever-increasing threats posed to security, life safety and asset protection. With more than 30 years industry experience, the DHS team has developed enterprise solutions for airports, military installations, government facilities, universities, hospitals, and Fortune 500 companies around the globe. DHS is a wholly-owned subsidiary of Keri Systems, Inc., an acknowledged leader and innovator of facility access and security systems, including proximity card access control, telephone entry systems, video surveillance and proximity readers.

About PSA Security Network

PSA Security Network (www.psasecurity.com) is the world's largest electronic security cooperative with members responsible for over \$1.7 billion annually in security, fire, and life safety installations. These leading security systems integrators specialize in the design, installation, integration, and maintenance of access control, video surveillance, intrusion detection, fire, and life safety systems.
